1. Applicant's election of Group I in Paper No. 8 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Uemura et al.

Uemura et al. teach carbon fibers wherein carbon fibers, such as a pitch based or a polyacrylonitrile fiber, are reacted with a compound and a carbide ceramic layer is formed on the fiber. Column 2, line 13, teaches that HfC is a preferred carbide. Since this fiber is derived from a preceramic polymer and has a hafnium carbide coating, this anticipates the instant claims.
